

WEEKLY PE CHALLENGE

In the normal game of golf, the aim is to get the ball into the hole in the lowest number of shots. So at the end, the lowest score wins!

Your throwing object could be anything – a tennis ball, a football, a frisbee, a pair of socks, a hoop – use your imagination!

In this golf challenge, you have to be creative and think up your own 'hole' to try and hit. This could be a garden chair, a bucket in the garden, a tree... Be careful you don't pick anything breakable!

CREATIVE CRAZY GOLF

Try a couple of times - can you beat your first score? Challenge someone in your house to have a go!

Then choose your object to throw (this is instead of using a golf club and golf ball) and see how many times it takes you to throw it and it must LAND AND STAY near the target. For example, if it bounces off and rolls away, you must go to where it rolled to and throw again! Keep going until it stops rolling.
